

## **Process development engineer**

### **Our company**

Polyganics is an innovative medical technology company. We develop, manufacture and commercialize worldwide, innovative bioresorbable devices to facilitate tissue repair and regeneration after surgery. We adapt our versatile polymers for different clinical applications, improving surgical outcome and patient recovery.

### **The job**

As one of our Process development engineers you will be improving our processes and equipment. You will work on development and design for new products/processes and on improving of existing products. As we are a medical device company this includes collecting and recording data and writing solid reports.

You will investigate plant or process improvement opportunities. These improvement projects are related to different aspects, e.g. safety, quality, capacity and efficiency.

You will be part our lean and mean Product development team.

### **Your profile**

We are looking for a self-starter and a team player who will thrive in an entrepreneurial and technology driven business environment.

You have a MSc degree in chemical/process engineering.

Five years or more work experience in the manufacturing or process industry / medical device industry and knowledge of GMP / ISO 13485 are a must. Experience with lean 6-sigma or statistics is an important asset.

This full-time position demands a high level of interpersonal skills, personal integrity and excellent written communication skills in English.

### **Our offer**

We offer a responsible, independent and challenging position in a growing organization with the opportunity to develop yourself.

Polyganics has a professional but informal working environment and a pleasant work atmosphere. We offer a competitive salary, good secondary benefits and support your efforts to improve yourself.

### **Would you like more information?**

Please contact Hans Kuijper, PD Manager +31 (0)50 588 6588 or Henne Barkema (HR) +31 (0)6 52 0616 35.

You can send your application to [hrm@polyganics.com](mailto:hrm@polyganics.com)
