

Polyganics **Vacancy Clinical research associate**

Our company

Polyganics is an innovative medical technology company. We develop, manufacture and commercialize worldwide, innovative bioresorbable devices to facilitate tissue repair and regeneration after surgery. We adapt our versatile polymers for different clinical applications, improving surgical outcome and patient recovery.

The job

As our **Clinical research associate**, you will be part of our Research & Development (R&D) department. You will team up with our Clinical research manager to prepare, perform and report clinical studies for our products according to applicable quality standards and guidelines. You will provide input for our strategy in the clinical development of new and existing products. You will also be responsible for the administrative process of our clinical studies.

You will

- support clinical research activities
- develop competitor intelligence in the field of clinical research
- support product registrations when clinical issues arise
- contribute to R&D projects
- collect post-market input.

Your profile

We are looking for a team player who will thrive in an entrepreneurial and technology driven business environment. You have a Master degree in preferably Life Sciences. Knowledge of standards, guidelines and norms for product development (ISO, MDD-/MDR- and FDA guidelines) and for clinical studies (Good Clinical Practice) is essential.

Experience in (aspects of) clinical research performance is required.

Knowledge of the surgical areas in which the Polyganics' products are applied is an advantage. This full-time position demands a high level of interpersonal skills, personal integrity and excellent (written) communication skills in English.

Our offer

We offer a responsible, independent and challenging position in a growing organization with the opportunity to develop yourself.

Polyganics has a professional but informal working environment and a pleasant work atmosphere. We offer a competitive salary, good secondary benefits and support your efforts to improve yourself.

Would you like more information?

Please, contact Mr. Bart Jan Korteling +31 (0)50 588 6588 or Mrs. Henne Barkema (HR) +31 (0)6 52 0616 35.

You can send your application to hrm@polyganics.com until May, 3.

Headhunters and bureaus need not apply.
